# E.O. 500-B: A Key to Promoting National Interest

**W**e support the current administration's vision for economic growth in Central Luzon as well as for the entire country and find it for its policies in promoting competitiveness that will lead to long-term economic benefits for all sectors of society. These policies, in fact, have greatly enhanced the investment climate not only in Pangasinan but in the entire Luzon Urban Beltway (LUB) and this exceptional economic growth was achieved in the face of a difficult political environment.

One of the centerpiece reforms of this administration that is highly acclaimed by development experts throughout the world is the liberalization of the Philippine Aviation Sector. Considering that about 70 percent of Philippine exports, by value, move by air and about 95 percent of visitors arrive by air, the full utilization of the country's extensive infrastructure such as airports is vital element for the country's economic development and is the fulcrum of the vision to make the Philippines a transport and logistics hub for the Asia-Pacific Region. The Arroyo administration correctly defines national interest as pro-employment, pro-development, pro-investment, and pro-tourism.

This policy has led to dramatic increases in passenger and tourist arrivals.

**Domestic Macapagal International Airport Passenger Traffic**

YEAR	PASSENGERS
2003	7,380
2004	49,300
2005	225,000
2006	671,500

Between 2005 and 2006, tourist arrivals jumped by over 70 percent from 56,000 to 93,000 at the Diosdado Macapagal International Airport. That is equivalent to at least P200 million in direct and indirect earnings by the tourism industry. The number of hotel rooms increased by over 50 percent between 2006 and 2007. Today, there are over 1,337 rooms within Clark alone. In the Greater Clark area, including Angeles and vicinity, there are more than 3,920 rooms enjoying high occupancy rates of 80 to 90 percent. The employment effects are tremendous. With an average of 1.2 to 1.8 employees per room, thousands of jobs are being created.

The liberalization of the Philippine aviation sector, however, is being opposed by special interest groups that favor an environment of "protectionism" and claim that said reform is a threat to national (or should we say "vested") interests. Yes, the various stakeholders of Central Luzon and the country, require our unconditional support to this administration's move towards liberalization as embodied in Executive Order 500 and Executive Order 500-B in a bid to have a semblance of a stable policy and would like to address the concerns of the Philippine air carriers. To wit:

- On the claim that the grants of aviation privileges to the Diosdado Macapagal International Airport (DMIA) and other airports are devoid of "reciprocity"

**Fact:** Reciprocity since the 90's has been defined in a broader sense to mean the exchange of rights, freedoms, and opportunities of equal or equivalent value. The entry of Low Cost Carriers (LCCs) in DMIA has led to enormous opportunities and economic impact to Central Luzon. The local carriers want us to be

convinced air route entitlements (that, by the way, they are still not utilizing fully) instead of counting true economic value when we speak of reciprocity.

- On the claim that EO 500-B gives 7<sup>th</sup> Freedom Rights to foreign airlines.

**Fact:** That is wrong. EO 500 and 500-B do not grant 7<sup>th</sup> freedom rights. What is granted is unlimited 2<sup>nd</sup> freedom rights.

- On the claim that EO 500-B would have an adverse effect on the existing routes operated by local carriers.

**Fact:** The entry of LCCs at DMIA since 2005 had not adversely affected the local factors of local carriers. PAL's load factor for its equivalent route, in fact, rose from 58 percent to 78 percent. PAL was even awarded the "Airline Turnaround of the Year" by the Centre for the Asia Pacific Aviation. Their argument against competition has been used before when PAL, objected to the entry of Cebu Pacific, Asian Spirit, and other local carriers in the 90s and has proven to be wrong.

- On the claim that EO 500-B would make the Civil Aeronautics Board (CAB) a mere advisory body.

**Fact:** All carriers applying for a route to the Philippines are still required to secure a Foreign Air Carriers Permit (FACP) from CAB and an Air Carriers Operating Certificate (ACOC) from the Air Transport Office (ATO). Hence, both CAB & ATO can still exercise regulatory functions to ensure that all carriers serving meet all international industry standards.

- On the claim that unilateral grants force the nation to give up valuable bargaining chips.

**Fact:** We have been granting unilateral grants since the early 90s and said practice has not prejudiced our bargaining power. Considering that foreign carriers are also enjoying benefits from such unilateral grants and that a unilateral grant may be withdrawn by us anytime, we feel that such grants even enhance our bargaining power.

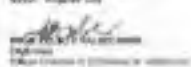

- On the claim that the EO would run afoul to a number of constitutional & legal provisions.

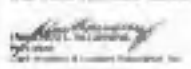

**Fact:** We see no basis for this claim as EO 500-B does not have constitutional infirmities as it does not violate any provisions of law. This argument, perhaps, is based on the assumption that EO 500-B grants 7<sup>th</sup> freedom, which is, of course, a false assumption.

Thanks to the vision and initiative of the current administration, Central Luzon is experiencing remarkable economic growth as a result of the policy reforms in the aviation sector. Liberalization has worked for previously controlled industries such as telecommunications and banking and we see no reason why it should not work for the aviation industry.

Accordingly, we respectfully call on the Philippine Government and the Excellency President Gloria Macapagal-Arroyo to continue with their thrust to promote true and long-term economic growth through the liberalization of the aviation sector and to promulgate EO 500-B in an expeditious manner.

## Lopsided rule of law

LETTERS

THE LOPSIDED RULE OF LAW IN THE PHILIPPINES IS A MAJOR OBSTACLE TO THE COUNTRY'S ECONOMIC GROWTH AND SOCIAL JUSTICE. THE CURRENT LEGAL FRAMEWORK IS OUTDATED AND DOES NOT TAKE INTO ACCOUNT THE NEEDS OF THE POOR AND MARGINALIZED. THE GOVERNMENT MUST REFORM THE LEGAL SYSTEM TO BE MORE EFFICIENT AND ACCOUNTABLE.

### Strengthening judicial system of Philippines

THE JUDICIAL BRANCH IN THE PHILIPPINES IS THE GUARDIAN OF THE CONSTITUTION AND THE PROTECTOR OF THE RIGHTS OF THE PEOPLE. IT IS CRUCIAL THAT THE JUDICIAL SYSTEM BE STRENGTHENED TO MAINTAIN THE RULE OF LAW AND PROMOTE JUSTICE. THIS CAN BE ACHIEVED THROUGH REFORMS IN THE JUDICIAL PROCESS, INCLUDING THE REDUCTION OF CASE BACKLOGS AND THE IMPROVEMENT OF JUDICIAL INDEPENDENCE.

### Resolving a judicial case in a judicial building

THE JUDICIAL BUILDING IS THE HEART OF THE JUDICIAL SYSTEM. IT IS WHERE THE JUDICIAL PROCESS TAKES PLACE, AND IT IS CRUCIAL THAT IT BE A PLACE OF ORDER AND EFFICIENCY. THE GOVERNMENT MUST INVEST IN THE JUDICIAL BUILDING TO ENSURE THAT IT IS A PLACE WHERE JUSTICE CAN BE SERVED.

# Funds for 42,000 villages shaved

By Marvin S. Lopez Jr.

MANILA, Philippines — The Department of Social Welfare and Development (DSWD) has announced that it has shaved off 42,000 villages from its list of beneficiaries for the National Anti-Corruption Campaign (NACC).

The DSWD said that the villages were shaved off because they were found to be ineligible for the NACC. The DSWD said that the villages were shaved off because they were found to be ineligible for the NACC.

Figure 1 consists of 16 micrographs arranged in a 4x4 grid. The columns represent different concentrations of 1,2,3,4-tetrahydro-6-methyl-2H-pyridine-6-one (1) (0, 10, 50, 100 μg/ml), and the rows represent different concentrations of the growth medium (0, 10, 50, 100 μg/ml). The images show varying degrees of bacterial growth, with higher concentrations of both compound 1 and medium leading to more pronounced growth.

## Pacquiao told: Don't let your guard down

By Jeff M. Harris  
MANILA, Philippines (AP) — Manny Pacquiao, the first Filipino to win a world boxing title, was told by his trainer not to let his guard down after a sixth straight victory over a former world champion.

Pacquiao, 34, defeated former world champion *[Name]* by a unanimous decision in a 12-round bout at the Araneta Coliseum in Manila. The victory moved Pacquiao to a record 14-0-1, with 11 wins by knockout.

The diagram illustrates the experimental setup. A participant is seated at a table, looking at a video screen. On the screen, a target (a small circle) is visible. The participant's hand is positioned at a starting point (a larger circle). The video screen is connected to a computer system. The participant is instructed to move their hand from the starting point to the target. The diagram shows the spatial arrangement of the participant, the video screen, and the computer system.

SIMPLE STEPS TO KEEP YOUR BUSINESS  
GOING AND GROWING.

Also, we do not suppose that agents can see the full history of the game, nor do we suppose that agents can see the full state of the world.

# BPI Family projecting 15-20% increase in housing loans

The BPI Family of banks is projecting a 15-20% increase in housing loans for the first quarter of 2005 compared to the same period last year. The increase is attributed to a combination of factors, including a strong economy, low interest rates, and a growing housing market. The BPI Family, which includes BPI Bank, BPI Finance, and BPI Insurance, is one of the largest financial institutions in the Philippines. The company's CEO, Mr. [Name], stated that the company is confident in its ability to meet the growing demand for housing loans and to continue to provide excellent service to its customers.

*BIR seen to file 116 tax evasion cases*

By [Name]

Local food firms are being urged to focus on the growing Russian market, which is projected to have a 6% growth rate. The Russian market is seen as a promising opportunity for local food producers, as it offers a large and growing consumer base. However, firms are also being warned of the risks of doing business in Russia, including corruption and bureaucratic hurdles. The BIR is also expected to file 116 tax evasion cases, which could have a significant impact on the local business environment.

**Development of apps for flight safety and security**

Philippine Airlines Ltd. is pleased to announce that it has developed a new set of applications for flight safety and security. The applications include a flight simulator, a safety training program, and a security protocol. The development of these applications was accelerated by the use of video technology, which allowed the company to create more realistic and engaging training scenarios. The new applications are expected to improve the safety and security of flights and to provide a better training experience for pilots and crew members.

**PLDT group to test IPTV platform broadcast with Pacquiao-Solis bout**

The PLDT group is set to test its new IPTV platform during the broadcast of the Pacquiao-Solis boxing bout. The IPTV platform is a new technology that allows viewers to watch live broadcasts of events on their computers and mobile devices. The PLDT group is confident that the IPTV platform will provide a better viewing experience for its customers and that it will be a successful addition to its portfolio of services.

**PAL**

**PAL adds flights to major destinations**

Philippine Airlines Ltd. (PAL) has announced that it will be adding new flight routes to its existing network. The new routes include flights to major destinations in Asia, Europe, and the Americas. The addition of these routes is part of PAL's strategy to expand its global reach and to provide more options for its customers. PAL is confident that the new routes will be well-received by its customers and that they will help to increase the airline's market share.

### Local branch of nonunionists

After intense bloodshed, the Communist Party of America (CPA) is now a minority in the American labor movement.

From its heyday in the 1930s, when it was the largest communist party in the world, the CPA has been reduced to a tiny remnant of its former self. The party's current membership is estimated to be around 10,000, down from a peak of over 100,000 in the 1930s.

The CPA's decline can be attributed to several factors. One major reason is the loss of its base in the industrial sector. In the 1930s, the CPA was a major force in the labor movement, particularly in the automotive and steel industries. However, by the 1950s, the party had been largely expelled from these sectors.

Another factor is the rise of the National Labor Relations Board (NLRB) and the National Labor Relations Act (NLRA) in the 1930s. These laws gave workers the right to organize and bargain collectively without the need for a union. This led to a decline in the CPA's influence in the labor movement.

The CPA's decline is also a result of its own internal problems. The party has been plagued by internal divisions and a lack of clear leadership. In the 1950s, the party was split into two main factions: the "left" and the "right." The "left" faction was more radical and focused on the struggle against capitalism, while the "right" faction was more moderate and focused on the struggle against the Soviet Union.

Today, the CPA is a small, isolated group. It has no significant influence in the labor movement or in American politics. The party's current focus is on the struggle against the Soviet Union and the promotion of socialism.

**Employee aging**  
The average age of the U.S. workforce is 40.5 years, according to a new report from the U.S. Bureau of Labor Statistics. The report, "Employee Aging and the U.S. Labor Force," shows that the number of workers aged 65 and older is expected to increase from 10.5 million in 1992 to 17.5 million in 2007. The report also notes that the number of workers aged 55 and older is expected to increase from 20.5 million in 1992 to 27.5 million in 2007.
